# Business Fixed LTE

Get your business up and running in no time.

With just a single device, BitCo has a solution to quickly get remote staff, small businesses or home-offices connected to the Internet. The BitCo business fixed LTE service is wireless so there is no waiting for Fibre rollouts. Cut out the frustration of lengthy delays and service disruptions. LTE is also an ideal back-up solution in the event that your primary connectivity fails.

## Frequently Asked Questions

### Is RICA required?

Yes. The standard BitCo RICA process applies.

### Can I use this LTE service anywhere?

The Fixed LTE service is only designed to be used at your business address. The SIM card will be locked to the location you provide and your Fixed LTE services will only work at this location.

### How long does it take to activate after delivery?

Your SIM card will be active from when the device is delivered to you.

### What time is night time data?

Night time data is available for use between 00:00 – 05:59 only.

### What happens if I move to a new location?

You can request to have your Fixed LTE service moved to another location once a year.

### What if I move and my new area has no coverage?

Our Fixed LTE services can only be used within MTN Fixed LTE coverage areas. If you are moving to an area without coverage you will need to follow our quick and easy cancellation process.

### Is the IP private or public?

MTN Fixed LTE provides a public dynamic IP address as a default. A static IP is optional. Please speak to a BitCo sales representative for more information.

## Powered by MTN

Using MTN's superior LTE network, the service is ideal for small- to medium-sized customers looking for an affordable, fast, and reliable Internet connectivity product. Data speeds and signal strength are best effort, and subject to coverage on the MTN Fixed LTE network. The BitCo Business Fixed LTE price plans will receive both anytime data and night time data.

## Why choose LTE?

1. Connectivity if you are out of Fibre or Wireless coverage \*
2. Get LTE while you wait for Fibre to be deployed
3. Hassle free - delivered to your door
4. Simple and effective back-up/ redundancy solution
5. Variety of data bundles available to choose from
6. Static IP option available
6. Bandwidth optimised for business use

\*The service is available in areas where there is MTN Fixed LTE network coverage as determined by the coverage map.
